AWARDS:

We're proud to have received these awards, recognising our commitment to excellence and setting the highest standards in commercial cleaning.

Westpac Franchise System of the Year 2023

Business to Business Franchise System of the Year 2023

Franchise System Excellence in Sustainability 2024

CERTIFICATIONS AND PARTNERSHIPS:

Excellence, sustainability, and inclusivity are at the heart of Jani-King. From ISO-certified health and safety systems to our commitment to diversity and native tree planting, we're shaping a better future in commercial cleaning.

We have a health and safety management system certified by the ISO 45001:2018 Occupational Health and Safety standard.

Jani-King is proudly a Diversity Works member, reflecting our commitment to inclusivity.

Partnering with Trees That Count, we gift a native tree for each new client to support sustainability.

SUSTAINABILITY

At Jani-King, sustainability is at the forefront of our values. Committed to sustainability, we were the first New Zealand cleaning company to use probiotic-based products and are proud Toitū Enviromark Diamond Certified and Toitū Carbon Compatible Certified.

Report your Scope 3 emissions confidently with Jani-King; we offer Toitū backed reports for reliable emission inventories.

PRODUCTS WE USE:

At Jani-King, one of our proudest assets are our Eco-benign® probiotic cleaners.

The term Eco-benign® was created to emphasise how **gentle** our probiotic cleaners are **on the environment**.

Instead of harsh chemicals, our cleaners use **naturally occurring**, biodegradable, and non-toxic beneficial microbes. These probiotics release enzymes that break down grime and odours, fostering a **naturally balanced environment**.

Unlike harsh chemicals, our products leave behind **beneficial microbes** for prolonged cleanliness and odour control without surface damage or buildup.

Odour Neutraliser

Our odour neutraliser uses the power of probiotics to eliminate odours at their source, breaking down trapped organic matter and leaving behind a fresh fragrance.

Sanitiser

Our general-purpose sanitiser is an organic acid-based sanitiser that's been formulated for dual action cleaning and disinfection of all hard surfaces.

General Purpose Cleaner

Our general purpose cleaner combines Eco-benign® chemistry with probiotics to effectively clean hard surfaces like toilet bowls, sinks, fixtures, and floors in an innovative, eco-friendly way.

Carpet and Upholstery Cleaner

Our probiotic, professional carpet and upholstery cleaner effectively removes dirt, soiling and odours leaving a pleasant scent.

NOT JUST COMMERCIAL CLEANING

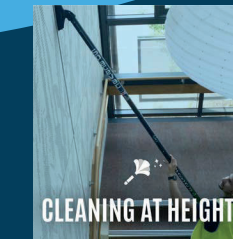

As a part of the NZervio group of sustainable companies we also offer additional services.

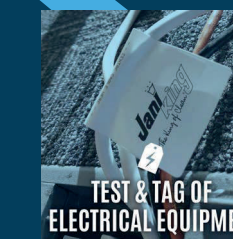

ENVIRONMENTAL MONITORING

BUILDING & WINDOW WASHING

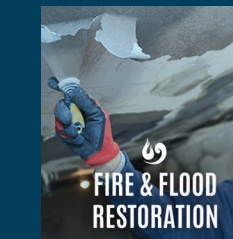

CLEANING AT HEIGHTS

TEST & TAG OF ELECTRICAL EQUIPMENT

PEST CONTROL

FIRE & FLOOD RESTORATION

JANI-KING NEW ZEALAND

More than just Commercial Cleaning.
